

## Safety Data Sheet

### Section 1: Identification

Product Identity	Company Details
Product Name: METCAR Resin Impregnated	Metallized Carbon Corporation 19 South Water Street Ossining , NY 10562
Product Description: Resin Impregnated Carbon Graphite	
Relevant Uses Mechanical applications of carbon products	Phone: (914) 941-3738
	Emergency Telephone Number (914) 941-3738

### Section 2: Hazards Identification

Warning: Respiratory and Skin Irritant

Warning: May form Combustible Dust

Typically this product is sold in a pre-machined form to customer specification where there is little to no risk of particle inhalation by the end consumer. In the cases where blank stock is provided to the consumer, machining can release airborne particles that may be inhaled or cause mechanical irritation to the eyes and skin. Acute exposure is typically not a concern but repeated over exposure may lead to respiratory ailments such as Pneumoconiosis. These airborne particles also have the potential to combust if they exist in sufficient quantity.

### Section 3: Composition/Information on Ingredients

Component	C.A.S . #	Relative Concentration by Weight
Natural Graphite	7782-42-5	0-90%
Synthetic Graphite	7782-42-5	0-90%
Carbon Coke	7440-44-0	0-90%
Cured Resin	N/A	10-40%

\*Exact concentration percentage is withheld as a trade secret

### Section 4: First Aid Measures

General:	Treat symptomatically; typical hygienic practices are generally adequate.
Contact:	If dust from the product enters the eyes or irritates the skin flush with water.
Inhaled:	If inhaled seek fresh air and rest. Seek medical attention if irritation persists.
Ingested:	N/A

### Section 5: Fire-Fighting Measures

**Extinguishing Media**

Water, Sand, CO2 Etc.

**Special Fire Fighting Procedures**

Be aware of potential explosion hazard due to dust accumulation. Use self-contained breathing apparatus as normal.

### Section 6: Accidental Release Measures

**Steps to Be Taken in Case Material Is Released or Spilled**

Normal housekeeping practice; sweep, shovel or vacuum clean up. Avoid creating and breathing dust.

### Section 7: Handling and Storage

**Precautions to Be Taken in Handling and Storing**

Graphite is electrically conductive. Dust accumulations may cause electrical short circuits or other malfunctions.

Avoid storing near oxidizing agents.

**Other Precautions**

Provide adequate dust collection and/or ventilation during machining.
